Pranav More

Full Stack Web Developer

+918983300103 pranavmore2811@gmail.com LinkedIn Github Portfolio Pune

PROFESSIONAL SUMMARY

A skilled **web developer** with proficiency in **front-end** and **back-end technologies**, I specialize in **HTML**, **CSS**, and **JavaScript**, along with frameworks like **React** and **Express.js**. I excel at building impactful web projects and thrive in collaborative environments, leveraging my problem-solving skills to create meaningful web solutions.

WORK EXPERIENCES

MERN Stack Developer | Trainee — Aug 2025 - Jun 2026
ACCIOJOB — *On-site • Pune*

- Built a **Learning Management System (LMS)** using React.js, Node.js, Express.js, and MongoDB, supporting 50+ simulated users with authentication and course management.
- Developed an **AI-powered doubt-clearing chatbot** that delivered instant responses and reduced query resolution time by approximately 70%.

Technologies / Skills Used : *React, Node.js, Express, MongoDB, Tailwind CSS*

Web Development | Internship — Jan 2025 - Mar 2025
CODSOFT — *On-site • Pune, India*

- **Developed** responsive web applications using **HTML, CSS, JavaScript, and React.js**, emphasizing **clean UI** and **enhanced user experience**.
- **Created** and deployed multiple projects, reducing redundant code by 15% and enhancing skills in **frontend development** and **problem-solving**.

Technologies / Skills Used : *HTML, CSS, JavaScript*

PROJECTS

Learning Management System | Coursecraft-ai — Mar 2026 - Jun 2026

- Developed **CourseCraft AI**, a MERN-based LMS featuring secure authentication, role-based access, course enrollment, and video streaming, achieving 95% accuracy in AI transcription.
- Integrated an **AI-powered chatbot** for real-time doubt resolution, boosting **student engagement** and enhancing **course completion rates by 30%**.

Technologies / Tools Used : *React, Express, Node.js, MongoDB, Tailwind CSS*

Employees Management System | Corporate-work-ems — Jun 2025 - Aug 2025

- Developed an **Employee Management System** using **React.js** with separate **Admin and Employee dashboards**, managing workflows for 50+ simulated employee records.
- Implemented **task assignment and completion tracking**, reducing manual efforts by **60%** and improving task visibility through a responsive, component-based interface.

Technologies / Tools Used : *React, Tailwind CSS*

Neural Network-Based Diabetes Detection Using ECG Signals — Aug 2024 - Apr 2025

- Developed an **AI-driven diabetes detection system** utilizing **ECG signals and RNNs**, facilitating real-time heart rate analysis on 1000+ ECG samples.
- Integrated **sensor-based ECG acquisition** with predictive models, achieving a 70% reduction in manual screening efforts and enabling real-time diabetes risk assessment.

Technologies / Tools Used : *React, Python*

SKILLS

Databases :	MongoDB, PostgreSQL, MySQL
Frameworks & Libraries :	HTML5, CSS3, JS, React, Express, Node.js, Tailwind CSS, Bootstrap, EJS
Programming Languages :	Java, Python, C, C++, JavaScript
Soft Skills :	Leadership and Teamwork, Excellent Communication, Analytical Skills, Strategic Thinking, Decision-Making
Tools & Platforms :	Git, GitHub, pgAdmin, MongoDB Compass, Postman, RESTful APIs

EDUCATIONS

PES Modern College of Engineering | Pune — Jun 2021 - May 2025
BE in Electronics and Computer Engineering — *CGPA : 8.5 / 10.0*

Kalasagar Academy And Junior College | Wai, India — Jun 2019 - Apr 2021
Higher Secondary Certificate (HSC) — *Percent : 90.33%*

Joy Childrens Academy | Wai, India — Jun 2018 - Apr 2019
Secondary School Certificate (SSC) — *Percent : 90.60%*

CERTIFICATIONS

- MERN Stack Development Certification – **AccioJob**
- The Complete Web Development Bootcamp Certification – **Udemy**
- Python for Data Science, AI & Development – **Coursera**
  (Offered by IBM)
